

EagleEye

GS 90-100

Optional quick-release latch

Plain view vs EagleEye

GoPro™ Hero™ 3 has a fantastic small versatile camera. TPL has created an attachment for a gun scope that finally allows to record or view in real time the video from the shooter. GoPro™ Hero™ 3 versatile camera can use WiFi or wire to output HDTV feed showing what the shooter sees in his scope. EagleEye product will withstand the gun recoil to 50cal and easily mounts on any scope neck from 30mm to 36mm diameter. An optional quick-release latch will allow rapid attachment. Record your hunting or shooting session!

Hero™ 3 cameras provide 12Mpixel photo and video recording capability, including 1080p at 60fps using standard H.264 format. Cameras can be remotely controlled by WiFi with smartphones and tablets. GoPro™ devices can simultaneously record photos and videos.

Connect EagleEye to your gun scope and record/display the shooting practice!
